

LIVE FROM PLANT 2 — A C.B.C. television mobile team converged on plant 2 last month and televised "live" No. 16 Canadair Air Cadet Wing in action. The weekly programme, known as "Reportage", featured the

cadets over the French Canadian Station CBFT Montreal. The air cadets grouped around their Harvard trainer with all the TV paraphernalia in the foreground was a typical scene in Building 207 during the programme.

No. 588 (CANADAIR) SQUADRON ROYAL CANADIAN AIR CADETS

The combined Squadrons were invited by the Dorval council to participate in the special parade to commemorate the incorporation of the Village of Dorval as a City. On the authority of the Civilian Committee, a float designed to portray the activities of Cadet Squadrons, such as instruction on engines and model aircraft and radio training. This float was preceded by a Precision Drill Team which received very favourable acclamation, by approximately 5,000 people at this function. This unit was again invited to participate in the Victoria Day parade in Saint Laurent area. The same float and drill team were again well received.
